

## 1.0 Tonne Electric Vehicle Battery Lifting Table

**VT-U-DP5**

Safety valve for anti-explosion of hydraulic system

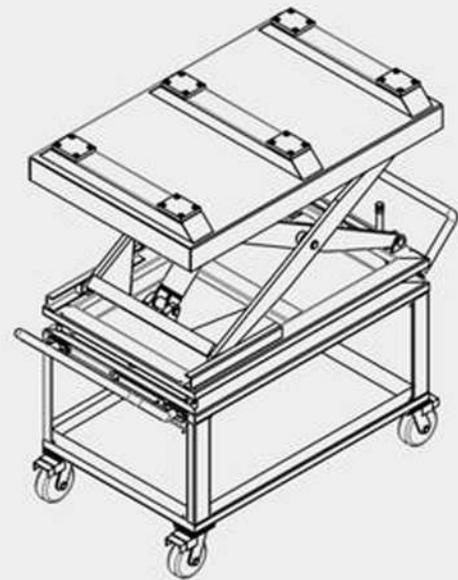

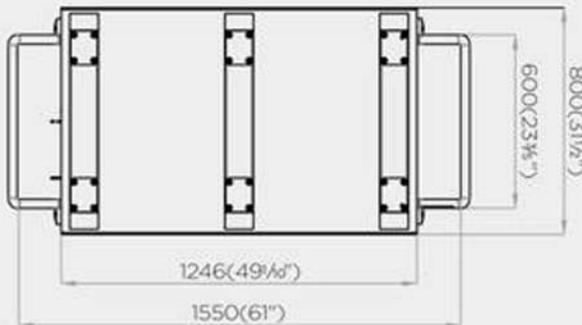

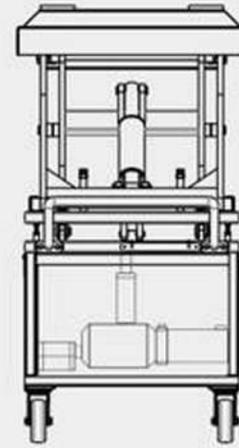

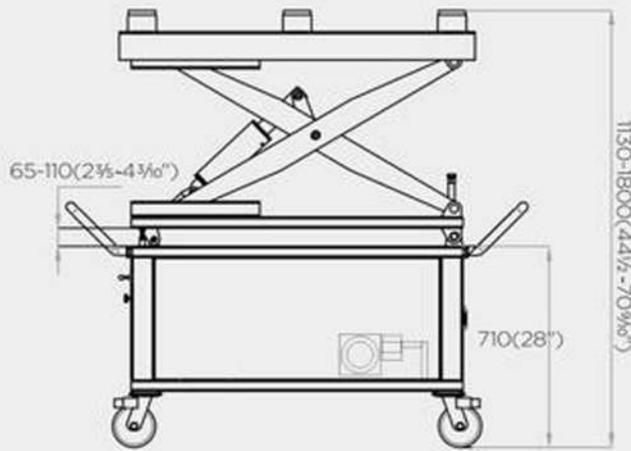

Drive-by-wire button

### FEATURES

- Easily transfer without installation
- Elevates from 1130 -1800mm
- The lift table is in either pneumatic or electric models
- Angle adjustable table is built to meet with the battery bottom seamlessly
- Convenient to position the table and carry the battery to the right place horizontally in 30mm without moving the lift
- Assembled with high quality components for fast and precise lifting

## 1.0 Tonne Electric Vehicle Battery Lifting Table

### VT-U-DP5

### TECHNICAL DATA

Capacity	1.0 Tonne
Lifting height	1800mm
Min height	1130mm
Platform length	1246mm
Platform width	800mm
Power supply	220V 1PH 50Hz 1.1KW
